Julie was our emcee during the National Creating Change Conference in Dallas, Texas. She was OUTSTANDING! She was the glue that brought our event and attendees together. She gave our conference clarity, built community, and ended our event with just as much gusto as when she jump-started it. It proved to be essential to have her as a collaborator before our event and then on the main stage for three days during our event. We immediately booked her again for 2021!
